EXPERIENCE

Freelancing | JAVA Developer

Developed multiple billing software solutions, including AdvoBills Premium, AdvoBills Lite, and AdvoBills Server, tailored for businesses and shopkeepers to streamline billing and inventory management.

PROJECTS

1. Locogram – Social Media App Using Firebase

A hyper local social media platform for Nanded, empowering users to connect, share, and stay updated with Local communities.

2. AdvoChats – Using OpenAi APIs

With the power of AI chat bot responses, you can engage in playful conversations and pranks with your friends.

3. AdvoBills Premium - Billing solution

A leading billing software in Nanded, achieving over 10,000 sales with efficient invoicing and inventory management.

4. AdvoEarn – Earn Money

Refer friends, scratch cards for instant rewards to boost your earnings.
